### **My future profession (Economist)**

Plans for future is a problem that worries not only me, but my friends, classmates, parents and teachers. The reason is that at the age of 17 we have to make a very important choice in our life – the choice of a profession. On the one hand, i'm adult enough to

have an opinion of my own about what i'm interested in and what i'm good at. On the other hand, at this age we lack life experience and our desires sometimes don't coincide with our possibilities. That's why it's very important to have somebody to give us a piece of advice. Such people are our parents, teachers and friends.

As for me, I want to be an economist. I like to read books of economics, research articles and analyze them. Nowadays this profession has become one of the most useful, modern and interesting. Also, I want to study economics as i'm very interested in current economic processes both in our country and in other countries.
